ICT - Year 5

In today's visual world, it is important for children to understand that not everything they see in pictures and images is as it seems. The power to edit and filter photographs is readily available and the ability to manipulate reality through digital techniques can have a profound impact on perceptions. Our year 5 computing lesson this week focused on "False Photography," where the children learned about the techniques used to alter images and the importance of critical thinking when consuming visual content.

Following the discussion, the children had a fantastic opportunity to explore their own creativity, crafting their own photographs and experimenting with different angles, lighting, and composition. This hands-on experience helped them understand the choices that photographers make and the potential for manipulating images.

KS1 - Famous Explorers

During the half term, Key Stage 1 were set a task to research famous explorers.

During our topic lesson this week, the children presented their work in front of the class, speaking clearly and confidently!

Well done everyone!

Multi Skills Festival Years 3 & 4

On Thursday morning, a group of Year 3 and 4 children went to the Howard School for the Howard School Sports Partnership (HSSP) Multi-Skills Festival. They participated in lots of races and throwing, jumping and catching activities. All of the children worked well, encouraging each other in all of the challenges set.

We received a total of 3 bronze and 9 silver certificates. **Meera and Jovan** were nominated for the 'Endeavour Award' as our pupils were excellent sports and encouraged and motivated everyone in their team. Well done everyone! We are very proud of you!
